

The EUREKA! McConnell Science Museum and the Community Alliance for Education and Hunger Relief are partnering again this year to bring you the 2018 Dig In Camp!

Learn about botany, hydrology, food science, agricultural science, pest control, soil science, and more. Dig In Campers will manage their own 1/4 acre garden, have access to the fields and orchards at the CSU Western Colorado Research Center each day and take 4 field trips throughout the Valley!

8:45am - 5:15pm

1st - 5th Grade

\$210 Members

\$245 Non members

DIG IN CAMP

April 20th: Start Our Garden

Learn about seeds. Explore the gardens. Test your knowledge in the Seed Challenge.

May 18th: Planting the Garden

Tend newly planted seeds. Learn about plants, components of a healthy garden, and tour the agricultural science station.

June 15th: Art in the Garden

Create art in the garden. Learn about the power of the sun. Explore landscape horticulture.

July 20th: Water Day

Learn how we use water on the farm. Tour the Clifton Water Facility. Hydrology exhibit exploration at EUREKA!

August 17th: Eating & Sharing with Others

Eat what we grow. Field Trip to Talbott Farms. Tour and help at Food Bank of the Rockies.

September 21st: Non Food Agriculture

Learn about agriculture that produces food we don't eat—oils, flowers, fur/wool. Field Trip to Suncrest Orchard Alpaca Farm and Sage Creations Lavender Farm. Enjoy a presentation from the Beekeeper Association.

October 19th: Fall Harvest

Harvest pumpkins. Field trip to the Ute Learning Garden. Learn about composting. Garden clean up and camp wrap up at EUREKA!
